Professional Summary

I am currently studying for a Master of Business Informatics, building on nearly four years of experience as a Business Analyst, including a Senior Business Analyst role. I have a strong background in understanding business needs, improving processes, and working closely with stakeholders to deliver effective solutions. I am now looking for a permanent, flexible, or part-time contract role to gain New Zealand work experience and continue growing professionally. I hold a student visa that allows me to work up to 25 hours per week during semesters and full-time during breaks.

-

Professional Experience

Senior Business Analyst - CodeGen International (Pvt) Ltd, Colombo, Sri Lanka | Aug 2025 – Nov 2025

- Served as the Senior Functional Business Analyst in a talented team developing a proprietary conversational **AI**(Artificial Intelligence) **product designed and developed in-house by my team** renowned for its coding, logical reasoning, and decision-making capabilities.
- Analyzed product functionality to identify and define enhancements that enable the **AI to assist Business Analysts** in preparing solution documents and requirement specifications.
- Collaborating with cross-functional teams (developers, architects, QA engineers, and stakeholders) to translate functional needs into actionable development tasks.
- **Supported the Flight Centre project team** during its maintenance phase, assisting with issue triaging and ongoing maintenance tasks.

Business Analyst - CodeGen International (Pvt) Ltd, Colombo, Sri Lanka | Jun 2023 – July 2025

- Product Owner and Business Analyst of Tour Operator system product for the **highest revenue-generating project team, [Flight Centre](#)**
- Acted as the primary contact for all flight-related enhancements and queries.
- Successfully managed and led the launch of a new sub-product to the **Tour Operator System** for **Flight Centre**.
- Led the next sub-product launch deployment, ensuring smooth execution and business alignment.
- Held the sole ownership of managing permission-related work within the project, ensuring proper user access control.
- Conducted API testing using Postman to validate system integrations.

- Led **User Acceptance Testing (UAT)** to ensure the system meets business requirements.
- Managed and prioritized the **Scrum product backlog** to align with business goals.

IT Business Consultant - Pixzarloop (Pvt) Ltd, Negombo, Sri Lanka | Jan 2024 – Oct 2025 (Part-time)

- Led business analysis across multiple projects, ensuring effective solution design and implementation.
- Conducted client requirement gatherings and collaborating with stakeholders to define business needs.
- Developing comprehensive project solutions by conducting in-depth requirements analysis, formulating structured frameworks, and ensuring alignment with business objectives and industry best practices.
- Supervised and mentored an Assistant Business Analyst, overseeing task execution and skill development.

Business Analyst - IFS R&D International (Pvt) Ltd, Colombo, Sri Lanka | Jan 2022 – Apr 2023

- Worked as part of a global team, collaborating with international stakeholders.
- Served as **Scrum Master**, leading the transition from Waterfall methodology to Scrum.
- Conducted data migration analysis between **IFS ERP systems** and other ERP platforms.
- Managed and published release updates of the global team media platforms.
